MESSAGE OF GOVERNOR JOHN W. GEARY.

To the Senate and House of Representatives of the Commonwealth of Pennsylvania:

GENTLEMEN:—An All-wise Providence has permitted you to assemble under circumstances demanding profound gratitude to the Great Lawgiver of the Universe. Our acknowledgments are first due to Him whose hand has not grown weary in showering blessings in profusion upon the people in every department of industry, and crowning their toil with richest rewards.

The circumstances under which you commence the duties of the present session are, indeed, auspicious; and at no former period in our history has there been greater cause for felicitation upon the inestimable blessings we enjoy, and the happy and prosperous condition of our great and growing Commonwealth.

The meeting of the General Assembly is always a matter of deep interest to the people, and perhaps never more so than now, when an unusual amount of necessary general legislation will occupy your attention, and questions of the highest importance are to be discussed and determined upon. I sincerely trust your industry and faithfulness in the performance of the important work before you, will win you the proud title of "the working Legislature."

Amid such circumstances our attention should be directed to a careful review of all the most important and essential interests of the State; and in the exercise of that discretion which the Constitution has confided to the Executive, I proceed to communicate such information, and to recommend to your consideration such measures as are deemed necessary and expedient.

As first in order and most important, I will present a carefully prepared and precise statement of the financial condition of the Commonwealth.

FINANCES.

It affords me pleasure to congratulate the people upon the satisfactory condition of the Treasury. Every demand upon it for ordinary and other expenses has been promptly paid, and the public debt materially reduced, which has inspired such public confidence in the securities of the Commonwealth as to cause them to command the highest premiums in the market. The operations of this department will be presented to you more fully and in detail in the reports of the Auditor General, State Treasurer, and Commissioners of the Sinking Fund. The following statement exhibits the receipts and disbursements for the fiscal year ending November 30, 1870:

Reduction of the Public Debt.

On the fifteenth day of January, 1867, the total indebtedness of the State was thirty-seven million seven hundred and four thousand four hundred and nine dollars and seventy-seven cents. Since then, and up to November 30, 1870, the sum of six million five hundred and ninety-two thousand seven hundred and forty-seven dollars and eighty-seven cents has been paid. The reduction during the year ending November 30, 1870, is one million seven hundred and two thousand eight hundred and seventy-nine dollars and five cents.

The average reduction per annum, for the last four years, is one million six hundred and forty-eight thousand one hundred and eighty-seven dollars.

In view of the fact that prior to the first of July, 1872, nearly eight million dollars of the public debt will be due, and in order that the Commonwealth may continue to meet all its obligations promptly at maturity, I recommend that such provision be made by the Legislature, as will authorize the Commissioners of the Sinking Fund to sell all the assets that may be in their possession, and apply the proceeds to the extinguishment of the debt; or, at the option of the holders, to exchange them for the outstanding bonds of the Commonwealth.

The indebtedness of the State might be paid in the following manner: As already shown, it was, on November 30, 1870, about thirty-one million dollars, from which amount, if the said assets, $9,500,000, be deducted, there would remain unpaid $21,500,000. After which, estimating the revenues and expenditures to continue as at present, the entire liabilities of the State could be liquidated in about eight years.

If this mode of paying the State debt should be regarded as unnecessarily rapid and oppressive, then a movement to revise and modify taxation may meet with much more general favor. Our debt is now held firmly by those to whom it is a great benefit to have te secure an investment. a certain reduction of one million dollars per annum on it would, perhaps, be more satisfactory to them and to the people, than to strive to pay it off so hastily. In an endeavor to force things under the present mode of taxation, there is great danger of driving capital away from our manufacturing centres. The landholder has been exempted from taxes on his land for State purposes, and the burden shifted upon the active, energetic and enterprising portions of the community, who have always had their full share to bear. The farmer is at ease, and runs no risk; whilst the business man, merchant and manufacturer are the motive power of the community, upon which the farmer himself must, in a great measure, depend for a realization of his industry. A more liberal policy towards those engaged in mercantile, manufacturing, railroad and mining pursuits should be adopted. Unless these interests are fostered and kept in full operation, all classes of the people will suffer. They are the very life-blood of the State, and should not, in any way, be chilled or impeded, by overburdening them with taxation for the immediate payment of the entire State liabilities.

The foregoing recommendations, in my opinion, embrace the true policy of the Commonwealth, and if adopted, will, doubtless, receive a hearty response and endorsement from the people. The taxpayers demand that all their social, industrial, commercial and financial operations shall be relieved from the burdens of any more taxation than may be necessary for the gradual payment of the debt, as is last above indicated, and to defray the frugal expenses of the administration of the government. Economy and reform should no longer be advocated as glittering generalities, or mere abstractions, without meaning or intent, but as vital, living realities.

CONSTITUTIONAL CONVENTION.

Four years' experience as an executive officer has given me abundant opportunity for careful observation upon the workings of our fundamental law, and the legislation of the State. This experience has strongly impressed me that there should be a thorough revision of the State Constitution, with such amendments as the wisdom of a convention assembled for that purpose would undoubtedly suggest, and an enlightened public sentiment demand.

The authority for holding such convention is found in the second section of the ninth article of the Constitution, and is declared in these words: "That all power is inherent in the people, and all free governments are founded on their authority, and instituted for their peace, safety, and happiness. For the advancement of these ends, they have, at all times, an unalienable and indefeasible right to alter, reform, or abolish their government, in such manner as they may think proper."

The last convention for this purpose was held in 1838. During the thirty-two years which have since elapsed, sundry amendments have been made by joint resolutions of the General Assembly, and in compliance with the tenth article of the Constitution, were approved and ratified by a majority of the qualified voters of the State. The most important were those of 1850, making the judges of the courts elective; of 1857, creating a Sinking Fund, regulating the public debt and legislative districts; and of 1864, conferring the right of suffrage upon those engaged in the military service of the State or Nation, and imposing sundry restraints on the power of the Legislature. These amendments, though important and valuable, give an incongruous and sort of patch-work character to the Constitution, and are not consonant with the requirements of the times.

This is a progressive period, and our State has out-grown its fundamental law. That law should, therefore, be made to keep pace with the age in which we live. The existing Constitution, including the amendments of 1857 and 1864, impose many wholesome restrictions on the power and jurisdiction of the Legislature; but experience has demonstrated their inadequacy to protect the people against the evils intended to be remedied, and especially those of corporate power, and of special and local legislation. The pamphlet laws for the last four years show that the general laws for each session made only about one hundred pages, whilst the local and special legislation for the same period amount annually to about thirteen hundred and fifty. The resulting evils are manifold and aggravated; and prominent among the reasons and suggestions why a remedy should be applied, I respectfully submit the following:

1st.—Different systems of laws for roads, bridges, schools, elections, poor-houses and many other things, are enacted for the several counties, townships and boroughs, on subjects which ought to be regulated by general laws, operating uniformly upon all.

2nd.—It is impossible for the citizens, judges of the courts, or members of the legal profession, to acquire or retain an accurate knowledge of the varying systems of laws in their respective districts; and frequently on removal from one county to another, our people find themselves under almost entirely different codes.

3d.—Practically, the whole theory of our Constitution and government is subverted and destroyed by the present system of local enactments. Representative government is based on the idea that the laws shall be framed by, and be the result of, the collective wisdom of the people's representatives. But what are the actual facts? The minds and efforts of the members are so wholly absorbed by private and local bills that it is almost impossible to get a general or public act considered or passed. The special and local bills are usually drawn by the member representing the locality, or by some one from the district interested in the proposed law. By what is called courtesy, it is considered a breach of etiquette for any member of the Senate or House to interfere with or oppose a merely private or local bill of any other member. The result is, the bills are passed as originally prepared, without examination or comparison of views,—often crude and ill-digested, and without regard to constitutional requirements or sound public policy. Some of the worst of these hasty and badly considered enactments are arrested every year by Executive interposition; but in the nature of the case, the veto at best can only be made a partial restraint upon the evil; and nothing can eradicate it short of constitutional prohibition.

4th.—Special legislation is the great and impure fountain of corruption, private speculations and public wrongs. It has become a reproach to republican government, and is one of the most alarming evils of the times. Judicious amendments to the Constitution would arrest and destroy the growing evil; and it is the duty of every patriotic citizen to co-operate in all lawful measures to effect so desirable a consummation. In the enactment of laws a radical change is demanded. Every bill presented for adoption should be read, at least once in full, and the yeas and nays be recorded on its final passage.

5th.—It is important that the State Constitution should be made to conform to the Constitution of the United States as recently amended.

6th.—The subject of minority representation is now much agitated, and receiving a large share of consideration among thoughtful and considerate men. It embraces problems of great political importance, and its manifest justice commends it to public favor. Whilst some of the objects it proposes might be obtained by legislative enactments, the general principles involved are so elementary and radical, they should, if adopted, be incorporated into the fundamental law.

7th.—The members of the General Assembly should be increased in number.

8th.—There should be a fundamental limitation to the powers of corporations.

9th.—There is absolute necessity for the public funds and for their proper distribution.

10th.—The State Treasurer, Superintendent of Common Schools, and a Lieutenant Governor, the latter to preside over the Senate, and perform the duties of Governor, in case of his absence, sickness or death, should be elected by the people. The Attorney General, Secretary of State, and the Adjutant General should, for obvious reasons, continue to be appointed by the Governor.

11th.—The day for holding the annual elections could, with great propriety, be changed from the second Tuesday in October to the same day in November on which nearly all the surrounding States now hold theirs. This would dispose with one election every for fourth year and prevent invasion from the States for the purpose of interfering with our elections, as the citizens of each State would be occupied with their own. The season, too, would be more satisfactory to the people of the agricultural districts, as it would not interfere with the harvesting of their corn and other summer productions.

The necessity for constitutional reform is appreciated and admitted by all who have reflected upon the subject, and without distinction of party, the press has been out-spoken, and has almost unanimously sanctioned the calling, at an early day, of a constitutional convention.

For these reasons, and many others equally important which might be enumerated, I earnestly recommend that the Legislature make provision for a convention to thoroughly revise and amend the Constitution of the State.

REVISION OF THE CIVIL CODE.

The commissioners to revise the statutes have completed their work. The entire laws of the Commonwealth, including those of British origin, except such as relate to crime, have been revised, collated and systematically arranged in a volume of less than three hundred pages, or about one-third the size of Purdon's Digest. Our laws are the accretions of one hundred and seventy years. Many of them are incongruous and disjointed enactments, which have been increasing, from time to time, by fragmentary legislation, without any attempt at system, logical arrangement, or conciseness of language. From the examination I have been able to give the revision, I am satisfied that in the discharge of their duty, the commissioners have exercised great diligence, ability and a conscientious desire for its successful accomplishment. It cannot be presumed that a work of such magnitude is perfect in every particular; and how far it may answer the purpose for which it was undertaken, remains to be determined. That it is an improvement upon what it is intended to supply there is no room for doubt. It adheres in the main to the text of existing laws, with occasional changes to meet present demands, but which were not needed when they were first enacted, and also additional provisions which the progress of the age requires. The work, as presented, might properly be adopted, without material changes, making it the basis for such amendments as time and necessity may suggest, or as may be recommended by the joint committee to which it was referred for examination by the Legislature of last year. It will be seen that some of its provisions have been framed with a view to throw much of our special legislation into the courts, where it may be disposed of with less inconvenience to interested parties, and a great saving in our annual expenditures.

WRITS OF ERROR IN CRIMINAL CASES.

At the last session of the Legislature an act was passed, entitled "An Act to allow writs of error in cases of murder and voluntary manslaughter." The first section provides that a writ of error "shall be of right, and may be sued out upon the oath of the defendant or defendants, as in civil cases."

The second section makes it the duty of the judges of the Supreme Court, in all such cases, to review both the law and the evidence.

Before this enactment the law reqired the defendant to allege that some error had been committed by the court on the trial, and to show cause, within thirty days, why the writ of error should be granted; but this law gives a writ, whether any error is alleged or not, and allows the defendant seven years in which to issue it, according to the practice in civil cases. Heretofore the Executive did not ordinarily issue the warrant for execution of any criminal until the expiration of the thirty days within which he was permitted to apply for his writ of error. That limitation of thirty days being now virtually repealed, and seven years substituted therefor, is it expected the warrant shall be withheld for the seven years? If not, when may it properly issue? And if issued at any time within the seven years, may not the criminal supersede it at any time he pleases by his writ of error? And may it not be reasonably expected that this will be the practical result in every such case? This would seem like trifling with very serious matters; and I respectfully submit whether the act of last session should not be repealed, or very materially modified, without delay. In my message of 10th February, 1870, returning the bill with my objections, I gave sundry reasons why it should not be approved, and the views therein expressed remain unchanged; and the Supreme Court of the State, in the recent Shoppe case, express their opinion of this enactment, as follows:

"It is not improper before closing to say a few words in reference to the act of 1870, to draw attention to some of its defects, and to the radical change in our criminal jurisprudence it will produce. It was passed for this case, but owing to the Governor's veto it came too late.—It is another evidence that the laws which are the offspring of feeling are seldom wisely framed. It commands this court to review the evidence, and to determine whether the ingredients to constitute murder in the first degree were proved to exist; and yet in forgetfulness of the former law, it provides no means to take, preserve and bring up the evidence. This, the first attempt to act under it, proves its inefficiency, the judge below returning to our *certiorari* that he was not able to make the return of the evidence. He is not bound by law to take the testimony or to certify to it. A bill of exceptions brings up only so much of the evidence as may be required to explain the point of law contained in the bill.

"The effect of this law seems not to have excited attention. It has changed the whole doctrine of the criminal law as to the speed and certainty of punishment, and left the felon both the hope and a door of escape, not only from the law's delay, but by prison breach, and all the various means of avoiding retributive justice.—At this moment, two cases occur to my memory of convictions of murder in Allegheny county, delayed by dilatory motions, where the prison doors opened by unknown means, and the prisoner escaped forever. Any murderer may, under this law—though like Probst he may have murdered a whole family—take out his writ of error, without limitation of time or condition, whether in prison, under sentence, or stepping upon the trap of the gallows, with cause, or without it, and suspend his case until the next term of the Supreme Court. No one could condemn him, if the death warrant not preventing, he should wait till the term of the Supreme Court be passed, and then take out his writ of error to delay the execution of his sentence for a whole year. That only security to the public, the examination of the case and allowance of the writ for cause, is repealed."

APPORTIONMENT.

The important duty devolves upon you to apportion, in accordance with the last census, the representation to the General Assembly and to Congress. This will be among the most laborous and difficult works of the session. In its performance, it is presumed and trusted that you will be guided and governed by a strict sense of justice and impartiality to all parties and to every district in the State, so that no well-founded reason be given for complaint or censure.

Under the laws of the State it is made the duty of the county commissioners of the respective counties to make returns to the Governor of the septennial enumeration of taxables on or before the first Tuesday of December. Not one-fourth of these returns have yet been received, although the attention of the commissioners was invited to the subject by special circular from the Secretery of the Commonwealth. As soon as the returns come to hand, the necessary abstracts will be made out and forwarded to the Legislature.

COMMON SCHOOLS.

The report of the Superintendent of Common Schools shows that there are now within the State, 2,002 school districts; 14,212 schools; 2,892 graded schools; 13,109 directors; 79 county and other superintendents; 18,612 teachers, and 823,891 pupils. This is an increase over the preceding year of 31 districts; 276 schools, 447 graded schools; 200 directors; 3 superintendents; 470 teachers, and 13,138 pupils.

The cost of tuition for the past year was $3,745,475 81 building, purchasing and renting school houses, $2,765,644 34; contingencies, $1,165,226 05; other expenditures, $85,475; making a total of $7,771,761 20. Estimated value of school property, $15,837,183. Average salary of male teachers $40 65 per month; length of school term, 6.06 months; and the cost per month of each pupil, 98 cents.

In addition to the above, five Normal schools are recognized by the State. These are intended specially to instruct in the art of teaching, and to furnish suitable teachers for the common schools. The many highly qualified instructors that have graduated therein, afford a sufficient assurance of theirs uccess and usefulness. They have aided materially in the rapid advancement of our general and widely approved educational system. Since their recognition, 12,390 students have been received into them; and 2,675 are now enrolled. There are 66 professors and tutors. The libraries contain 8,135 volumes. The buildings and grounds are valued at $364,667; and the furniture and apparatus at $75,000.

Besides the schools that receive legislative support, there are in the State 601 private schools, seminaries and academies, employing 848 teachers and having 24,815 students. The estimated value of their property is $600,000, and the annual amount received for tuition $380,000. There are also thirteen colleges, with 157 professors and tutors, and 2,805 students enrolled. They own much valuable property, and their libraries number 95,000 volumes.

These statistics will, doubtless, prove interesting to all who peruse them, and those relating to the common schools merit the especial attention of the Legislature. The prosperity and happiness of all communities depend, more than anything else, upon their general intelligence. Idleness, immorality, crime and poverty abound most where ignorance prevails. The greatest wealth a people can possess, and the highest political freedom and power they can attain, are based upon and derived from a sound and generous education. Freedom from the many evils that disturb the peace of society; social harmony; good and healthful government; and all the multiform blessings that conspire to produce human happiness, are its legitimate fruits. Money judiciously expended by any community for the mental training of its youth, cannot be lost; it will not fail to return in due time, bearing a liberal interest. The admirable working of our Pennsylvania school system are everywhere admitted, and its great success is chiefly owing to the generosity of the Legislature by which it has been so kindly and so beneficently nurtured, and it is sincerely to be trusted that it will never weary in this praiseworthy work, which has thus far been so well accomplished and so abundantly rewarded.

SOLDIERS' ORPHANS' SCHOOLS.

Your attention is respectfully invited to the report of the Superintendent of the Soldiers' Orphans' Schools, for the year terminating May 31, 1870.

Since the first organization of these schools the whole number of childred admitted is 5,053. And during the same period, the discharges, including deaths, amount to 1,524, leaving 3,529 in the schools at the close of the year; of whom 2,137 are in "graded," and 793 in "primary schools," and 599 in "Homes."

During the year terminating May 31, 1871, 493 of these will be discharged on *age*: in 1872, 477; in '73, 599; in 74, 646; in '75, 646; in '76, 602; in '77, 584; in '78, 410; in '79, 291; and in '80, the remainder, 171. From this statement it will be been that all the childred now in the schools, on reaching the age of sixteen, will be discharged in ten years on age alone. The reinforcements to the schools will hereafter consist only of children born prior to January 1, 1866; consequently all who may hereafter be admitted must come in during the next ten years, and they will be more than absorbed by the discharges on *order*. The number discharged this year, on age, is 400, and on order, 230, and 15 have died, making in all, 645. Should the rapidity of the discharges on order continue in anything like the ratio of the present year, it will not require more than five years to exhaust the greater portion of the schools, and the childred remaining in them will from time to time have to be concentrated in a few of the schools which shall be deemed the best, to close up the concern.

The expenditures of the system for the school year ending May 31, 1870, are as follows, viz:

For education and maintenance of children in advanced schools.....	$283,900 67
For education and maintenance of children in primary schools.....	101,475 58
For education and maintenance of children in homes.....	68,286 42
For cloth'g, shoes, mak'g, mend'g, &c.	53,889 75
For partial relief of 13 child'n $30 each	390 00
For general expenses.....	9,190 00
Total expenses.....	514,126 42
Total appropriations.....	404,700 00
Balance.....	$19,426 42

The sum appropriated is for the

amount estimated by the Superintendent in his report of 1869, but owing to the extreme pressure of the guardians and relatives of many indigent and suffering applicants, the Superintendent, with my consent, admitted a large numbers of children than he originally estimated for; the balance, as above stated has, for this reason, necessarily and unavoidably accrued.

Under an act, entitled "An Act to provide means for the establishing a soldiers' orphan's school in each State Normal school district in this Commonwealth, now destitute thereof," approved April 15, 1867, and a supplement thereto, approved March 25, 1868, the sum of twenty-one thousand dollars was advanced out of the State Treasury as a loan to five institutions. These being fully established, are repaying this loan at the rate of five per cent, quarterly, as specified in the act. Sixteen thousand eight hundred dollars of this loan remained unpaid on May 31, 1870, and owing to the change of the form of settlements which, by law, went into operation at that time, it was, unexpectedly to the Superintendent, deducted from the appropriation by the accounting officers, and consequently bills for education and maintenance for that sum and the above balance remains unpaid. No special appropriation for this amount is asked: but all that is required is the passage of a joint resolution, authorizing its payment from the sum appropriated for the expenses of the current year, which, in consequence of a reduction in prices, I am informed will exceed them to about the amount of the said balance,

The early passage of such a resolution, is necessary, because the institutions to which the money is due cannot afford to wait long for it without serious inconvenience. Provision should also be made by the Legislature that, as the said sum of $16,800 is re-paid in quarterly instalments by institutions from which it is due, it shall be applied to the reimbursement of the funds appropriated for the advances thus made.

The Superintendent estimates the expenditures for education, maintenance, clothing, &c., of 3,600 children, during the year terminating may 31, 1872, at $500,000. After a careful examination, I find it correct. and respectfully request an appropriation for that amount. This estimate will, it is believed, enable the Superintendent to admit all proper applicants. It is $20,000 less than the appropriation for the current year, and it is confidently anticipated that hereafter each succeeding estimate for annual expenses will be much more largely decreased.

I have personally visited, inspected and examined quite a number of these schools since the adjournment of the last Legislature; and I do not hesitate to pronounce most of them superior, in all respects, to any other institutions of a similar character in the country. The supervision of the Superintendent and the male and female inspectors has been exceedingly faithful and effective; and those having the schools in charge, with but few exceptions, have displayed a devotion to their duties, and to the interests of the children, as unexceptionable as if dictated by the purest parental affection.

The sanitary condition of these children is one of the most remarkable features of the schools. During the five years they have been in operation, out of 5,053 children, only seventy-one have died, which is but a little over one and four-tenths per cent, of the entire number for the whole time, or less than three-tenths of one per cent. per annum. These facts are incontestible evidences of the care and attention that have been bestowed upon these institutions.

The establishment of these schools, and the liberal encouragement and support they have received, have met the approval and admiration not only of the other States of the Union, but of the entire civilized world. Philanthropists and statesmen from foreign nations are constantly making inquiries concerning the laws governing and directing the operations of our soldiers schools, their management and the results, and give frequent assurances of unqualified commendation.

The foregoing exhibit is, I trust sufficiently satisfactory to prompt a continuance of the generous patronage already extended to an institution unsurpassed by any other of the kind in usefulness. Its benefits extend beyond the mere shelter, clothing, feeding and education of the sons and daughters of our heroic dead. In generations far remote its influences will stimulate to deeds of patriotic ardor and heroism. Hereafter the defenders of our country will not falter when they reflect that should they fall, they have in the Commonwealth a parental protector of their beloved ones, who otherwise would be left desolate and neglected. The State has abundant cause to rejoice in what it has done for its soldier's orphans, and to be proud of these schools, which now constitute the brightest jewels that that adorn its crown of glory.

AGRICULTURAL COLLEGE.

This institution appears to be gradually accomplishing the objects for which it has been liberally endowed by the State. It has about sixty students who are instructed, not only in the ordinary branches of literature and science, but in all the field operations necessary for a thorough agricultural education.

The Experimental Farms, established under the supervision of the officers, have thus far answered their expectations. The experiments therein are carefully recorded: every incident of cultivation, the nature of the seed committed to the soil, its exception, growth, progress and results, together with the conducing causes, being accurately noted. The publication of these observations, made in different parts of the State, with various climates and soil, under the guidance of skilled agriculturalists, will impart valuable lessons for the benefit of the practical farmer, and, doubtless, be the means of establishing a "Science of Agriculture," having its foundation in the wisdom of experience. The report of the trustees furnishes a full description of the educational and financial condition of the college, together with the progress and results of the Experimental Farms during the year just ended.

MILITARY.

Your attention is invited to the accompanying report of the Adjutant General, for the details of the transactions of his department during the past year. The necessity of a military power in the State, subordinate and auxiliary to the civil authorities, has been so fully discussed, and so generally admitted, as to render any argument on the subject entirely superfluous. It is admitted, on all hands, that a thoroughly organized and well disciplined military force contributes essentially to the maintenance of the peace and good order of society, and to the security of the persons and property of citizens. It has been my desire and aim to constitute such a force, to aid the civil authorities, should an emergency arise, in the suppression of public tumult or disorder. This has been effected more successfully than was at first anticipated. In 1866, there were but eight volunteer companies in the State; at the close of 1869, there were one hundred and eighty-four; to which number one hundred and fifty-eight companies were added last year. In the meantime, thirty have been disbanded, leaving three hundred and eleven organized and active military companies, now recognized by act of the Legislature, as the "National Guard of Pennsylvania."

From the company organizations fourteen regiments and five batalions have been formed. Whilst I am not disposed to encourage regimental organizations of cavalry or artillery, they being unnecessarily large and expensive, I regard separate or independent troops and batteries of these branches of the service, attached to brigades of divisions, as highly important.

The quota of arms due Pennsylvania has been drawn from the General Government This amounted to forty-five hundred breach-loading rifle-muskets and accoutrements, with a proportionate supply of the proper ammunition. These have been distributed, as provided by the fifty-seventh section of act of may 4, 1864, in such manner as in my judgment "will most effectually subserve the military interests and necessities of the Commonwealth."

As heretofore stated, all the State military departments created during the war have been merged into that of the Adjutant General. That department is now the depository of all our military records, the importance and value of which are constantly indicated by the daily applications of officials of the General and different State governments, of attorneys and agents, of soldiers themselves, or their representatives, for certificates and exemplifications. The Adjutant General is also the responsible custodian of all the military property belonging to the Commonwealth. I, therefore, recommend that his department receive the favorable consideration of the Legislature, and the continuation of such appropriations as may be required for its efficient administration.

MILITARY HISTORY.

The Legislature, in 1864, passed an act authorizing the Governor "to appoint some competent person to prepare a military history of Pennsylvania volunteers and militia," who had been or might thereafter be in the field during the war of the rebellion. In conformity therewith, my predecessor appointed Samuel P. Bates, Esq., to perform this difficult and responsible undertaking. He commenced the task with zeal and industry, and has prosecuted it with ability. The work has proved to be far more extensive, and required a much greater amount of labor and research than was at first contemplated. Four large royal octavo volumes, handsomely printed and substantially bound, have been produced, and the fifth, and last volume, will be completed before the first of June next. The book, itself, affords the best commentory or criticism of the manner in which the author has discharged his duties. It puts in concise form and perpetuates the most important portion of our history, which otherwise would have been forever lost. Hereafter it will be invaluable to the Commonwealth.

RIGHTS OF FRENCH CITIZENS.

By the seventh article of a Consular Convention between France and the U. S., signed February 23, 1853, it was stipulated that the citizens of the respective countries should mutually have the same rights to hold real and personal estate, and to enjoy and transmit the same. My attention has been invited to this subject by a letter from Hon. Hamilton Fish, Secretary of the United States, dated May 9, 1878, enclosing a copy of a communication from the Minister of France to the United States, resident of Washington. That letter, accompanied by said seventh article, and a copy of my reply thereto, (marked A and B,) are herewith submitted to the Legislature for information, and with the recommendation that the subject be carefully considered, and such action taken thereon as will make the statutes of the State conform to our obligations under the provisions of said convention.

NATIONAL CEMETERIES.

On the first of July, 1870, an act of Congress was passed amendatory to the act, entitled "An Act to establish and protect National cemeteries," approved February 22, 1867. The object of these laws is to place under the National Government the management and preservation of these cemeteries, and to secure the consent of the several States in which they are located. This consent has already been given as to the cemetery at Gettysburg, by the act approved April 14th, 1868; and the National authorities now ask for the same action by the State as to the cemeteries at Glenwood, Lebanon, Mount Moriah, Odd Fellow's and Woodland, in Philadelphia; and also those at Harrisburg, Pittsburg and York.

Copies of a communication on this subject, from the Secretary of war, and of the act of July 2, 1870, (marked C and D,) are herewith transmitted, with the recommendation that the consent of the State be given, in compliance with the laws of the United States.

The objections heretofore existing to the payment of the appropriation for the use of the Antietam cemetery having been removed, the sum appropriated has been paid over to the treasurer.

IMMIGRATION.

In accordance with a request to that effect, I submit, for your consideration, a copy of the proceedings of the National Immigration Convention, (marked "E,") which was called by the Governors of the Western Jtates, and was largely attended, at Indianapolis, Indiana, on the 23d of November, last. The main object of the convention, it appears, was the adoption of such resolutions as might induce the different States of the Union to importune Congress to enact such laws as would afford immigrants, while *in transitu* from other lands, and upon their arrival in this country, protection against the abuses to which they are now notoriously subject. As the encouragement of immigration, of a useful character, has always been the approved policy of our government, the object as presented, is regarded as deserving of your attention.

THE MILFORD AND MATAMORAS R. R.

About the close of the last session of the Legislature an act was passed and approved, entitled "A supplement to the Milford ann Matamoras R. R. Company." The fourth section of this enactment seems to have been intended to take from the State, and give to the company, the ten thousand dollars bonus, paid into the State Treasury annually by the N. Y., and Erie Railroad Co., under the fifth section of the act of 26th, March, 1846. Soon after the adjournment, my attention was directed to the subject, and to guard against loss I caused the Attorney General to give notice to the New York and Erie Railroad Company that the State would look to that corporation for the payment of the annual bonus, as heretofore, notwithstanding the passage of the supplement referred to. I regard the latter as having been enacted and approved, through inadvertance, in the hurry of a closing session, and as hasty and inconsiderate legislation, at variance with the settled policy of the State, and highly prejudicial to the public interests; and I therefore earnestly recommend its immediate repeal, or at least so much of it as relates to the bonus.

TELEGRAPH LINES AND RAILRORDS.

The question of the assumption of the control of the telegraph lines, and the chartering of railroad companies within the State by the General Government, was partially considered by the Legislature at its last session, and is now receiving considerable attention. Regarding the subject as one of vast importance, involving the sovereign power of the State, the interest of corporations that are enfranchised by it, and of our citizens who have investments in stocks and bonds amounting to many millions of dollars, I most earnestly invite your serious examination of it, and your early action thereon.

GEOLOGICAL SURVEY.

A reliable geological and mineralogical survey would be of incalculable value to the State. Without it we have indefinite ideas of our vast undeveloped mineral wealth, and the expense attending it would be utterly insignificant when compared with the benificial results. We are, at present, without even a reliable map to indicate the locality, character and resources of our mineral regions. And as good maps are the basis of all usefull research in every department of science and the arts, especially in the practical sciences of geology and metallurgy, the first step toward a geological survey is to obtain as correct a map as possible, if not of the entire State, at least of such parts thereof as are of the most importance to be studied geologically. This will be a work of labor and time, and can only be accomplished successfully by triangulating each county separately, and from the county maps thus acquired, constructing a complete and accurate map of the whole State. It is neither wise nor just policy to delay this work because it may be more perfectly effected at some future time. There is for it a present necessity, and the time never will come when such a work can be rendered perfect. There can be no such thing as a final geological report. New developments in mineral resources, as well as additional acquirements in scientific knowledge, will constantly be made as long as the world exists.

The general voice of the business community and landownership of the State demands this survey. It is especially called for by the oil regions, newly discovered coal fields, and by the iren, manufacturing and railroad interests Large portions of the State remain, to a great extent, unstudied by scientific and practical men. The old survey of 1836—41 did a good work, but it is of little value now, except in a few localities. Since it was made, wonderful discoveries have taken place, and problems of structure and deposit still remain unsolved, doubtless involving many millions of dollars in value Then, many of the back counties were comparatively unsettled, and scarcely any openings were made in our mineral districts, except in the anthracite coal basins and around Pittsburg. Now, the State is full of trial shafts and private explorations; extensive forests have been cleared; roads penetrate what were inaccessible regions; railways traverse whole counties with instrumental field work; many thousands of oil and salt wells have been bored; valuable mines put in working order; the population has advanced in intelligence and grown more observant and enterprising, and the skill of the geologist, metallurgest and surveyor has reached a higher degree of perfection.

Posterity has its claims upon us; and should be considered that whatever is done for the present generation is so much accomplished for the generations that may follw. One important function of a geological survey is to preserve knowledge for future use. Science collect many facts before it arrives at true conclusions. For want of a porper bureau of statistics, and a corps of observation and publication to collate and relate the facts of our geology and mineralogy as they have appeared, the State has already suffered severely. Much valueable information has been lost, never to be recovered; and but little certain knowledge of past mining, and other scientific operations, has been preserved to govern and assist the future engineer. The sooner, therefore, in my opinion, a geological survey is authorized, the better will it be for the prospective interests of the State, as well as for its present necessities.

BOARD OF PUBDIC CHARITIES.

Under the requirements of an act, approved April 24, 1869, I appointed five commissioners to constitute a Board of Puplic Charities, who, at all times, have full power to look into and examine the condition of all charitable, reformatory or correctional institutons within the State; and at least once in every year visit all such as are receiving State aid, to examine everything connected with their management, and especially to ascertain whether the funds appropriated to them are economically and judiciously expended. The requisite number of gentlemen, possessing the necessary qualifications, have generously consented to serve on this Board, which is now fully organized, and the objects contemplated are being accomplished. Early during the session their first annual report will be presented for your consideration, which will give a full account of the extent and importance of their philanthropic transactions in behalf of the Commonwealth.

BATTLE OF GETTYSBURG.

I am informed that the picture of the Battle of Gettysburg, painted by order of the Legislature, has been completed. As this valuable production is the property of the State, I deem it important that you should appoint a committee, with whom I shall be pleased to cooperate, to take it in charge and prepare a place suitable for its accommodation. This should be made sufficiently capacious, and so arranged as to afford an opportunity for the display of the flags and other relics of interest to the citizens of the State, and to the numerous visitors at the Capital.

DELEWARE BOUNDARY LINE.

The Legislature, at its session of 1869, passed an act, entitled "An Act to settle, determine and locate the southern boundary line of the Commonwealth." In conformity therewith commissioners were appointed to act "in conjunction with like commissioners on the part of the State of Deleware." That State however has failed thus far to make the necessary appointments. The work, consequently, remains unaccomplished, and the boundary line is not definitely fixed.

Under ordinary circumstances this might not be regarded as important; but when it is considered that there is a material difference in the penal codes of the two States, and that the code of Delaware contains certain provisions, and authorizes the infliction of punishment repugnant to all the citizens of Pennsylvania, serious evils may some day arise out of the neglect to determine this line. It is impossible to tell what might transpire, should the State of Deleware seize upon a citizen and subject him to the disgraceful and abhorrent punishment of the pillory and the whipping post, who, upon subsequeat investigation, was ascertained to have his residence in Pennsylvania. The injured party would have a right to demand, and we would be compelled to grant him satisfaction for the wrong he suffered. This, and other reasons, might be urged for the immediate settlement of this question. Pennsylvania does not desire, and cannot afford, to come into collision with the State of Delaware.

FISHERIES.

The Supreme Court has decided that the law requiring the owneas of dams in the Susquehanna river to make fish-ways in the same, at least in cases where they had purchased their works from the State, is unconstitutianal and avoid. From this decision it does not appear that the State cannot have such ways constructed at its own expense. But this does not seem advisable until concurrent legislation can be obtained with Maryland, that State holding both banks of the Susquehanna river at its mounth and for many miles above. The subject has been brought to the attention of Maryland, the Legislature of which State, at its last session, passed a law providing for the appointment of commissioners of fisheries, to report at its next session which will not occur until next winter. The fisheries under consideration are nearly, if not quite, as much deteriorated by the want of statutory laws for their protection as by the mechanical obstructions in the streams.

The New England States and N. Y., have commenced the experiment of fish propagation in the large streams north of us on quite an extensive scale. Their experience will be useful to us when all obstacles arising from the divided State ownership of the river shores shall have been obviated. New Jersey appointed fish commissioners at the last session of her Legislature, and the commissioner of Pennsylvania is now in treaty with them in reference to needed concurrent legislation. The subject is reciving careful attention in both States by their delegated agents. It is hoped that Delaware will join with Pennsylvania and N. Jersey in the reforms needed on the Delaware river.

STATE LIBRARY.

The accumulation of books belonging to the State, by purchase, exchange and donation, largely exceeds the capacity of the cases now in the library for their accommodation. Many thousands of volumes, of great value, are necessarily stored away in such a manner as to render them inaccessible and consequently useless. I, therefore, recommend that the Legislature authorize the construction of a sufficient number of alcoves, to accord with the architectural arrangement of the building. These can be completed at moderate cost, which will be more than compensated for in the safe keeping of the books; and in their accessibility and general uesfulness.

STATISTICS.

Permit me to renew my recommendations concerning the collection and properly recording of statistical information relating to the development and growth of the various resources of the Commonwealth. Such records are an almost indispensable necessity. The want of them is a source of constant perplexity and annoyance to all the State officials and representatives of foreign nations, who have business with the different departments of the State government. These statistics might be gathered, at a moderate expense, by an intelligent clerk appointed for that purpose, and the books at all times kept open for inspection in the office of the Secretary of the Commonwealth.

LAND DEPARTMENT.

The report of the Surveyor General furnishing a detailed account of the Land Office. During the past fiscal year 3,580 patents were issued, covering 537,880 acres, being more than one-fifty-sixth part of the area of the State. The great amount of work in this department requires several additional clerks. The insecurity of the buildings renders necessary additional iron cases or safes for the protection of the muniments of title and other public documents. The expenses of the office, including improvements, was 23,400, whilst the receipts, from fees alone, amounted to $54,703 61.

MINES.

Herewith is submitted the report of the Inspectors of Mines, filled with highly important statistical information, to which your careful attention is invited. The necessity for such inspectors is demonstrated by the number of casualties reported, and the propriety of extending the provisions of the act by which it has been instituted to all the mining districts in the State, forcibly exhibited.

YELLOW FEVER.

This fearful epidemic made its appearance at the Quarantine Station in June last, spreading terror through that neighborhood, and causing serious alarm in Philadelphia. The disease assumed its worst type, and the percentage of mortality was extremely large. It was brought to the Lazaretto, from Jamaica, by the brig "HoMe," whose captain died during the voyage. The vessel was detained by order of the Lazaretto physician, who, with the Quarantine Master and other valuable attaches of the station, fell victims to the pestilence. The second mate and pilot of the brig, in violation of orders to the contrary, and also of the health regulations, went to city, where they both died; and it has been inferred that the deaths which subsequently occurred there are partly attributable to their imprudence.

Upon the death of the Lazaretto Physician and the Quarantine Master, I appointed two physicians, both of whom were known to have had much experience in yellow fever, to fill the vacancies. They volunteered their services at a time when it was difficult to obtain persons properly qualified. The results proved the propriety of these appointments. Soon after they entered upon the performance of their duties, the disease was eradicated and the station restored to its usually healthy condition.

Some changes seem necessary for the proper management of the quarantine. In my opinion the Quarantine Master should by law be required to be a medical man, qualified to act as an assistant to the Lazaretto Physician, and to perform the duties of that officer, in case of his absence, sickness or death. Had this been the case when the late physician died, the necessity for calling assistance from without would have been obviated, and the sickness, suffering and mortality lessened. The salary of this officer, as well as that of the Lazaretto Physician, should be materially increased, in order to retain competent and responsible men for these important positions. The salaries now paid were fixed many years ago, and are an inadequate compensation for the risks and services required.

Grateful acknowledgment are due to the members of the Board of Health for their excellent sanitary precautions and personal services during the prevalence of the epidemic, and also to the attaches of the Quarantine Station for their fearless devotion to duty in the time of danger, and their constant and self-sacrificing attention to the wants of the sick and dying. Had it not been for these faithful and efficient services, by which the progress of the fever was arrested, Philadelphia and other populous districts might have suffered a repetition of the horrors of former years when this dreaded disease made such frightful ravages.

IN MEMORIAN.

Hon. Wm. F. Packer, ex-Oovernor, died at Williamsport, on the 27th of Sept., last. He was one of the self-made men of whom the State has justly had cause to be proud. In early life he distinguished himself as a journalist, and in the many public positions he subsequently occupied he acquired a high reputation for his eminent abilities as a statesman and executive officer. During his public career he filled the offices of Canal Commissioner and Auditor General, and was a member of each branch of the Goneral Assembly, having served two terms as Speaker of the House. His last public trust was that of Chief Magistrate of the Commonwealth. He was over sixty-three years of age at the time of his death, and has left behind him an untarnished fame.

Hon. Wm. W. Watt, late a member of the Senate, departed this life on the 17th of November last. He had served four successive years as a member of the House of Representatives, and was in the first year of his Senatorial term at the time of his death. He was well known and highly respected, unassuming in his manners, kind and courteous in his deportment, and in the discharge of his obligations, whether of a public or a private nature, he won the esteem of those who knew him.

The Legislature will, I trust, not fail to take suitable notice of the demise of these two distinguished citizens, who, during their life-time, were so prominent in rendering services for the public welfare.

PARDONS.

Accompanying this communication will be found the report of pardons granted during the past year. Compared with the increase of crime, and the great number of prisoners in the county jails and State penitentiaries, the number is less than that of former years. In exercising clemency towards persons convicted of crime, I have strictly endeavored, under all circumstances, to observe that caution and discretion contemplated in the Constitution, and to impartially administer that merciful prerogative and extend its beneficent protection only for the correction of the errors of criminal jurisprudence, the relief of those who may have been "cruelly" or "excessively" punished, and those around whom cluster mitigations and ameliorating circumstances.

The number of applications for pardon during the past year was twelve hundred and forty, of which sixty-two, or five per cent, were granted.

The commutation of sentences for good behavior in prison, in accordance with the law of 1869, has effected favorable results in the conduct of prisoners, and their keepers find it a great auxiliary in maintaining a wholesome prison discipline. Its beneficial effect will doubtless be manifest in the conduct of of those who are released from prison because of its reformatory influences, and it is believed that fewer convicts discharged under it will return to criminal pursuits than under the old system.

GENERAL REMARKS.

The cheerful aspect of national affairs is a subject for congratulation. A prudent and patriotic administration has given to the country the substantial fruition of the victories obtained in the late struggle for freedom and the Republic The dissevered States have been restored to the Union; peace reigns triumphant through all our dominions; the national credit is established beyond the possibility of successful assault, and returning prosperity abounds in every State and department of the government.

The doctrine of free trade, so beneficial to foreign interests and so inimical to American industry, if carried out to its legitimate results, would soon cause American labor to be absolutely impoverished, reduce the free and happy millions of toilers to the degraded condition of the down-trodden population of Europe, and capital would no longer seek enterprises thus rendered unremunerative. Protection to our products and manufactures, when rightly viewed, is protection to labor against competition from abroad. Labor in the U. S. commands higher wages than any other country. Consequently our working men are the more elevated. Labor is the foundation of individual and national wealth, and those nations that have most thoroughly protected it from foreign competition have been most prosperous. During the late war the talismanic influences of protection on our home industries, and upon the labor and capital invested, were obvious in developing and raising them from their paralyzed condition to the substantial prosperity which has since pervaded the country. And, now, when it has been so transcendently demonstrated, that we are not only able to defend ourselves, but what is equally important, "to depend upon and live upon our own resources;" and when the advocates of free trade are endeavoring to persuade us to adopt the absurd theory, that "tariffs hinder the development of industry and the growth of wealth;" why should not the wisdom of the government make available the teachings of experience, and at once legislate for the good of the people? Why should it not protect American labor, maintain its compensation, give the producer a home market, and develop the unbounded resources of the country? The duty on tea, coffee and tropical productions, and all inquisitorial and other taxation under the revenue laws, except upon luxuries whisky and other liquors, and tobacco, should be repealed. Fortunately in Pennsylvania there is but little, if any, difference of opinion on the subject of a reasonable protective policy. You cannot legislate upon this subject, but you can, and you should, instruct your Senators, and request your Representatives in Congress, to use their best exertions to preserve us from the baneful influences of free trade, to which the emissaries of Great Britain, are now with syren songs, so anxiously and industriously endeavoring to lure us to destruction.

After a satisfactory adjustment of duties on foreign productions, so as to prevent the possibility of undue competition from, abroad, and a thorough revision and modification of our system of internal taxation, a limit may safely be placed to the annual reduction of the National debt, say to fifty million dollars except when great prosperity should make the treasury over plethoric, and the occasional unexpended balances might be used in the purchase of additional bonds.

The introduction of "Chinese Coolie," or "contract labor," is one of the greatest evils that can befal the toiling millions of our country. Their presence is not only degrading but impoverishing and paralyzing to our patriotic and intelligent workingmen. It is a new species of slavery, equal in all its injurious tendencies to that, the extinguishment of which cost the nation such immense treasures, and so many thousands of valuable lives. It should not be tolerated for a single moment, as its results will virtually be to debase and force our workingmen into unnatural rivalry with the dregs of the Chinese population. Restrictive laws against the importation of this kind of labor, such as would stay its further progress, should be enacted without any unnecessary delay.

The claims against Great Britain for depredations upon the commerce of our citizens, by the piratical steamship Alabama, and other vessels, and the disputed rights of our fishermen in the eastern waters, are yet unsettled. The importance of these issues have caused much bitterness of feeling, and, to a considerable degree, involve the peace and honor of the country. The alleged cruel treatment, by England, of American citizens charged with complicity in some of the Fenian movements, equalled only by the historic horrors of Dartmouth and Andersonville, loudly call for the prompt and humane attention of our Government. These three subjects, I am informed, are now under the consideration of the National Administration, whose intention it is to settle them with as little delay as possible, and in such manner as will meet with general acquiescence and approval.

While two hercic nations In Europe have been engaged in deadly strife, shocking to civilization, our country has been but little affected by it in a physical sense. But our sympathies are deeply excited for both people, and in the name of humanity we earnestly hope their differences may soon be satisfactorily adjusted, and peace restored.

I have observed with pleasure that Congress is about to provide, by legislation, for the building up and protection of the commercial marine of our country, and for postal facilities to and from foreign countries by American vessels. These measures should, and no doubt will, receive the approval of the people. It is also gratifying to find the mercantile, manufactoring, railway and other interests of our great commercial city of Philadelphia, moving with vigor, and, I am assured, with success, in providing the means necessary to establish a first-class line of American iron steamships to run between that city and European ports. The Legislature will, no doubt, grant liberal franchises to effect a result that will place our Commonwealth in advance of all others, in the construction and use of such vessels for ocean navigation. With the aid and facilities which the National and State Governments may find it their duty and interest to extend, it is hoped that this enterprise will be successful. The construction and maintenance of steamers suitable for the purposes indicated, would consume large amounts of our great staples—iron, steel, coal, and lumber—

This Remedy does not simply relieve for a short time, but it produces perfect and permanent cures of the worst cases of Chronic Nasal Catarrh, and I will pay $500 reward for a case that I cannot cure. "Cold in the head" and Catarrhal Headache are cured with a few applications. If you have a discharge from the nose, offensive or otherwise, stopping up of the nose at times, partial loss of the sense of smell, taste or hearing, eyes watering or weak, feel dull, have pain or pressure in the head, you may rest assured that you have Catarrh. Thousands annually, without manifesting half of the above symptoms, terminate in Consumption and end in the grave. No diseases is so common, more deceptive or less understood by physicians. I will send my pamphlet on Catarrh to any address free. Dr. Sage's Catarrh Remedy is now

ROSADALIS.

THE GREAT AMERICAN health RESTORER, purifies the blood and cures Scrofula, Syphilis, Skin diseases, Rheumatism, and all Chronic Affections of the blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens. Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.

Dr. R. W. Carr, of Baltimore, says
I take pleasure in recommending your Rosadalis as a very powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.

Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleaner of the Blood I know no better remedy.

Samuel G. McFadden, Murfreesborough, Tenn., says:
I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.

Benjamin Bechtol, of Lima, Ohio, writes, I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

Rosadalis is sold by F. P. GREEN, and Druggists generally.

MANHOOD

In the Young and Rising Generation.

The vegetative powers of life are strong, but in a few years how often the pallid hue, the lackluster eye and emaciated form, and the impossibility of application to mental effort, show its baneful influence. It soon becomes evident to the observer that some depressing influence is checking the development of the body. Consumption is talked of, and perhaps the youth is removed from school and sent into the country. This is one of the worst movements. Removed from ordinary diversions of the ever-changing scenes of the city, the powers of the body, too much enfeebled to give zest to healthful and rural exercise, thoughts are turned inwards upon themselves.

If the patient be a female, the approach of the menses is looked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the circulation and visiting the check with the bloom of health. Alas! increase of appetite has grown by what it fed on; the energies of the system are prostrated, and the whole economy is deranged. The beautiful and wonderful period in which body and mind undergo so fascinating a change from child to woman, is looked for in vain. The parent's heart bleeds in anxiety, and fancies the grave but waiting for its victim.

HELMBOLD'S

EXTRACT BUCHU

For Weakness arising from excesses or early indiscretion, attended with the following symptoms: Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision Langour, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Eyelids, Frequently Black Spots Flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of attention, Great Mobility, Restlessness, with Horror of Society. Nothing more desirable to such patients than Solitude, and nothing they more dread, for Fear of Themselves; no Repose of Manner, no Earnestness, no Speculation, but a hurried Transition from one question to another.

These symptoms, if allowed to go on—which this Medicine invariably removes—soon follow Loss of Power, Fatuity, and Epileptic Fits, in one of which the patient may expire.

During the Superintendence of Dr. Wilson at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left them, and both died of epilepsy. They were of both sexes, and about twenty years of age.

Who can say that these excesses are not frequently followed by those direful diseases Insanity and Consumption! The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness to the truth of these assertions. In Lunatic Asylums the most melancholy exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever visits it. Should a sound of the voice occur, it is rarely articulate.

"With woeful measures wan Despair
Low sullen sounds their grief beguiled."

Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences.

Terms: $2.00 Per Annum in Advance.

BELLEFONTE, PA.

Wednesday Morning, January 11, 1871.

THE MESSAGE.—In order to lay before our readers the excellent Message of his Excellency Gov. John W. Geary, we have been compelled to omit other interesting editorial and news matter.—We have several good communications, from "Reformer," W. G. and others which we will insert as soon as possible.

CONGRESSIONAL.—A bill has been introduced into the Senate for the admission of Colorado as a State. The amnesty resolutions were warmly discussed·—The House appropriated $30,000 for the removal of the Apacha Indians·—Mr. Sumner introduced a bill authorizing the issue of $500,000,000 more of five per cent government bonds.

THE EUROPEAN WAR.—The Prussians have gained some advantages in several severe-fought battles, recently. Provisions in Paris are growing scarce and great suffering is reported in the city. It is generally conceded that Paris cannot hold out much longer. It is now reported that the late Emperor Napoleon was a fraud—That he has not one drop of Napolean blood in his veins.

STATE LEGISLATURE.—The Senate was organized by the election of Wm. A. Wallace, Democrat, of Clearfield county, Speaker by one of a majority. All the other Senate offices were filled with Democrats.

The House was organized by the election of Hon. James A. Webb, Republican, of Bradford county, by ten of a majority. All the rest of the officers of the House elected were Republicans.

The Republicans have a majority of ten in the House and a majority of nine on joint ballot. The Democrats have a majority of one in the Senate.

Bills have been introduced in the Senate and House for holding a Constitutional Convention about the 1st of June next, to revise the State Constitution, the delegates to said convention to be elected on the plan of "minority representation.

THE SAVINGS BANK VS. THE GIN SHOP.

The Savings banks of the State of New York, are now holding one hundred and fifty millions of dollars, and are paying out about seven million of dollars annually to depositors. We think it would be well if every laborer and mechanic should try the experiment of keeping a bank account wherever there is a savings bank to deposit in. Why Bellefonte has not an organization of that kind, is more than we can account for.

In speaking of the Savings banks of New York State, the New York *Globe* says:

"It is no wonder that men who possess that best benevolence which takes a practical turn, and who find time and disposition to give attention to something that does not yield a heavy profit to themselves, are enthusiastic over these institutions, for they are a public benefit which it is hardly possible to overrate. The more savings laid away the less pauperism and crime; as the number of jails naturally diminishes. The man who has a bank account is likely to be a peaceable citizen, feeling that he has an interest at stake in maintaining order and good government. The laborers who are laying up their savings are not found among rioters; nor do they, as a rule, join idle and demoralizing bands of strikers; they mind their own business, and are the real foundation of a State, after all. Most of the city banks now follow the excellent plan of paying interest from the beginning of each month: hence the small savings of depositors earn them something, and the saving of these driblets from useless frittering away, and the habits of industry and prudence thus inculcated are simply invaluable.

No community should be without a savings bank accessible to its members, and the number of banks can never be too large so long as it does not exceed a due proportion to population. But as all benevolence is useful only so far as it is practical, and as—for illustration—a wise missionary to the suffering poor would never preach religion to the mind until he had supplied food and comfort to the body, we wish to drop a hint to all temperance organizations and laborers, in this wise: *The savings bank is the natural enemy and destroyer of the gin shop.* In the slang phrase of the day you know how it is yourselves, and so no argument is necessary. Those who have had intemperate habits, know from their own experience, and others may know equally well from observation, that the bottle keeps the purse empty, but a habit once formed of saving, is a powerful incentive to temperance. Hence we suggest to temperance men that saving institutions are an excellent ally for them, which they should encourage and use as much as possible; and wherever there is a man who has begun to drink, for instance, persuade him to open an account, and let the natural suggestion therefrom, work in his own mind. Other ways of using this power will suggest themselves, as best adapted to individual cases."

OVER EXERTION.—All feel the necessity at times of something to tone up the system, wasted and depressed by over mental or physical exertion. Instead of rasorting to alcholic or medicated stimulants, use Speer's "Standard Wine Bitters," the base of which is his pure Wines. They are superseding all others now offered to the public. Try them and you will be convinced of what we say.

Sold by Druggists.

MISCELANEOUS ITEMS.

The Philadelphia Press deliberately advises its hearers to "lay in their coal." Disgusting!

When a man becomes rich with "dirty money," nobody should regret it if he gets cleaned out!

What is that which is a defect in a ship but an admirable quality in a lovely woman? Missing stays.

When do appearances lead you to suppose that a man runs the risk of being burned to death? When he smokes.

Louisiana has a newspaper called The Sugar Bowl. You can have "a finger in it" for two dollars per annum.

A Western editor, seeing two washerwomen quarreling, quoted Tennyson:—"Wring out, wild bells."

Butler has his eye on the British Lion. That animal had better look out. The eye is cocked.

That story about a cat dying brokenhearted on her master's grave is all bosh. She is lively these frosty nights.

When Socrates was asked why he had built for himself so small a house, he replied, "Small as it is, I wish I could fill it with friends."

Mrs. Sarah Cheadle, of Morgan county is one of the twelve widows of revolutionary soldiers drawing pensions.

RELIGIOUS NOTES.

The Presbyterian Church at Corning, N. Y., raised $15,000 subscription in one day (Sunday, Nov. 29), thus liquidating the entire debt of the society.

When the corner-stone of the Hanover street Methodist Church in Boston was laid for the first edifice, there were but forty Methodists in the whole city. The number is now over four thousand.

The Methodist Protestant Church in Virginia, at its Annual Conference, resolved by the close vote of 13 to 12, to hereafter unite with the Virginia Conference of the Methodist Episcopal Church, South.

South Carolina Presbyterianism indicates an accession of health and strength, in the fact that whereas in 1865 the average salary of its clergn was $300, it now reaches $700. In the Charlesto Presbytery the average is over $1,500.

Wheeling, West Va., has 10 Methodist congregations; 5 Presbyterian Churches; 4 Luthern; 2 Prot. Episcopal; 2 Roman Catholic; 1 Baptist; 1 Reformed, and 1 Disciples of Christ. The spirit of Christian union very generally prevails in all the churches.

The Protestant Episcopal Society for the increase of the Ministry, report $12,020 as the contributions received for the eleven months preceding Sept. 1. Of this sum Connecticut furnished $7,218; New York State, $7,663: Pennsylvania, 2,884, and Rhode Island $2,192; these four States thus contributing very nearly two-thirds of the whole amount.

In the Providence (R. I.) *Journal* of recent date occurs the accompanying paragraph:

A NEW GUIDEBOARD.—At a corner of the highway, about half a mile east of the "Live Meeting-House," in Foster, a new guideboard has just been placed upon a pole, with this novel inscription, printed in large and small letters: "Zion's Hill, perfect church, 1½ miles. Thank God that we are not like other men." It was recently erected, between two days, and points towards the place of meeting of a new sect, which claim *to be the only ture Church.*

Medical.

Ayer's Sarsaparilla.

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attacks of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seemes to breed infection throughout the body, and then on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as **Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia,** and the various **Ulcerous** affections of the muscular and nervous systems.

Syphilis or **Venereal** and **Mercurial Diseases** are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. **Leycorrhœa** or **Whites, Uterine Ulcerations,** and **Female Diseases,** are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. **Rheumatism** and **Gout,** when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also **Liver Complaints; Torpidity, Congestion of Liver,** and **Jaundice,** when arising, as they often do, from the rankling poisons in the blood. This **SARSAPARILLA** is a great restorer for the strength and vigor of the system. Those who are LANGUID and *Listless, Despondent, Sleepless* and troubled with *Nervous Apprehensions or Fears,* or any of the affections symptomatic of **Weakness,** will find immediate relief and convincing evidence of its restorative power upon trial.

The Great Medical Discovery!
Dr. WALKER'S CALIFORNIA
VINEGAR BITTERS,

Hundreds of Thousands
Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

"They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion of Inflammation of the Liver, and all the Visceral Organs.

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

THEY ARE NOT A VILE
FANCY DRINK,

Made of **Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, **free from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and LIFE GIVING PRINCIPLE** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION.

Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other **WORMS,** lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle.

BELLEFONTE REPUBLICAN.

BELLEFONTE, PA.,

and also give employment to thousands of our mechanics and citizens, and vastly benefit all branches of trade and industry.

All good citizens will rejoice when the last disagreeable vestiges of the recent civil war shall have been obliterated. Since the cessation of open hostilities, the nation has set the whole world a noble example by its unprecedented magnanimity in forgiving the offences and restoring to citizenship the great mass of those who warred against its peace and safety. In this regard, we have been as generous in peace as we have been invincible in war; and now but comparatively few of those who sought to dissever the Union remain as aliens and strangers to its government. The supremacy of the laws has been maintained, and their power is no longer disputed. The passions that excited and protracted deadly strife have subsided, and we are again, practically, a homogeneous people. There are, doubtless, here and there, some disaffected spirits, but their numbers are too few, and their power to insignificant, to give serious cause for uneasiness or alarm. And even towards these, conciliation will be more productive of good results than the avenging force of triumphant power. It is greatly to be desired that universal peace, amity and national fellowship and brotherhood should again prevail throughout our country. And the time is, I trust, close at hand, when this grand and perfect consummation will be effected by universal amnesty. It would efface the lingering distinctions which are fostered by punishment of the very few for crimes in which very many participated, and remove the last pretext for hostility against a government whose magnanimity is the crowning glory of its power. It will accord with enlightened and progressive civilization, and harmonize with the tested might and grandeur of free institutions. It will present, too, the noblest government of the world's history as impregnable and indissoluble, because founded, without distinction, class, birth or circumstances, upon the virtue and intelligence of all its people.

The employment of United States troops at elections, without the consent of the local and State governments, has recently received considerable attention and reprehension. It is regarded as an interference with the sovereign rights of the States, which was not contemplated by the founders of the general government, and, if persisted in, must lead to results disastrous to peace and harmony. The practice is one so serious in its character, and so injurous in its tendencies, as to merit prompt consideration, and decisive action, not only by the General Assembly but by Congress. One of the complaints of the colonists against the British King was the oppression growing out of the assumption of this power. They said, "He has kept among us in times of peace, standing armies, without the consent of our Legislature," and, what is especially pertinent to the case in point, "He has affected to render the military independent of, and superior to, the civil power." The alleged authority for the use of troops, at our State elections, is derived from the tenth section of an act of Congress, approved May 31, 1870, entitled "An Act to enforce the right of citizens of the United States to vote in the several States of the Union, and for other purposes," which authorizes United States marshals to call to their assistance, "such portion of the land and naval forces of the United States, or of the militia, as may be necessary to the performance of the duty with which they are charged, and to insure a faithful observance of the Fifteenth Amendment to the Constitution of the United States." But it must be a forced construction of this law that will justify the presence of armed national forces at our places of election when no necessity exists therefor, and where their presence is calculated to provoke collision. With a good president, the exercise of the power referred to might have no injurous results, but in the hands of a bad man, governed by personal ambition, it might prove exceeding calamitous. Unconsciously a good President might be induced to employ it wrongfully; a bad one would be almost certain to use it for his own advancement. Under any circumstances, in my opinion, it is unsafe, and antagonistic to the principles that should govern our republican institutions. At the last October election United States troops were stationed in Philadelphia for the avowed purpose of enforcing the election laws. This was done without the consent or even the knowledge of the civil authorities of either the city or the State, and without any expressed desire on the part of the citizens; and as far as can be ascertained, without existing necessity. From a conscientious conviction of its importance, I have called your attention to this subject. A neglect to have done so might have been construed as an endorsement of a measure that meets my unqualified disapproval. The civil authorities of Pennsylvania have always been, and are still, competent to protect its citizens in the exercise of their elective franchise, and the proper and only time for United States military forces to intervene, will be, when the power of the Commonwealth is exhausted and their aid is lawfully required.

The celebration of the Centennial Birthday of American Independence is exciting much public attention. It will be an important era in the history of the nation. Congress has already agitated the subject, and will, doubtless, soon take action in relation thereto. The place for this great occasion should not be a question of controversy. No other could be so appropriate as Philadelphia. Around the Hall of Independence cluster all the brightest memories of the eventful period to be commemorated. There Congress met; there the historic bell first proclaimed "liberty throughout all the land unto all the inhabitants thereof," there the Declaration of Independence was first promulged, and there should be the national celebration of the one hundredth anniversary of the nation's existence.

In conclusion, it is my sincere desire, that we may cultivate the spirit of good will, forbearance, kindness and charity, and unite in constant efforts to promote the public good and general prosperity.

Sung to the tune of Yankee Doodle.

The Great Pacific Railroad's laid,
From ocean unto ocean,
And now complete connections made,
An enterprising notion.

The mighty work at last is done,
So speedy and brisk, oh!
And now in ten days we can run
From here to San Francisco.

No more we take the ancient route,
The stage, a horrid slow thing;
It banged the passengers about
And wore out all their clothing.

CHORUS, for the end of each verse:

The Great Pacific Railroad laid,
From ocean unto ocean,
And we buy clothes from A. STERNBERG,
A most delightful notion.

Through passengers by the Pacific Railroad will call at the store of A. Sternberg, before starting, and provide themselves with a complete outfit of Spring and Summer clothing, the very best assortment of which will always be found at A. Sternberg's Store.

People who travel by other routes, and also people who, instead of travelling by any route at all, prefer to stay at home, can find the most superior and seasonable garments, for every occasion, of every variety, and at the lowest price.

BELLEFONTE REPUBLICAN.
BELLEFONTE, PA.

Wednesday Morning, January, 11 1871.

HOME NEWS.

TATE, of the Williamsport *Sun* publishes a handsome paper and he is a first class editor.

WHEN the purse is empty, and the kitchen cold, then is the voice of flattery no longer heard. Too true.

ACCIDENT.—A log chopper near Philipsburg, had his leg seriously cut with an axe in his companions hands.

A NEW LIMB.—Mr. G. W. Dacy, Post Master at Philipsburg, who had his leg amputated last summer has got himself an artificial one.

THE *Gazette* and *Buletine*, and evening paper published at Williamsport, is a live daily and edited with more than ordinary ability.

WHAT is the matter with the weekly Altoona *Sun* that its luminous rays shine no more on the REPUBLICAN? "Daniel come to judgment!"

THANK YOU.—Our exchanges, one and all, will please consider our best Warburton beaver touched for the flattering notices of the REPUBLICAN.

THE wash-house, wood-house and smoke-house of Mr. Ad. Bartges, near Aaronsburg, was destroyed by fire on yesterday week. No insurance.

SUDDEN DEATH.—Mrs. Robert Porter, of Old Fort, after returning from milking complained of being unwell, and within half an hour afterwards expired.

UNFORTUNATE.—A house owned by Christian Dale, of Harris tp., and occupied by a Mr. Rider, was destroyed by fire with all its contents, lately. There was no insurance.

GLENN'S Photograph car, on High st., accidently caught fire on last Saturday night, but the flames were quenched by Homer Brown and Bill Dillon before much damage was done.

THE Raftmans *Journal* published at Clearfield is the only Republican paper published in Clearfield county. It is a wide-awake Journal, neatly and plainly printed, and has a large circulation.

THE Philipsburg *Journal*, published at Philipsburg, this county, is one of the best local papers in the State and we are pleased to learn that it is in a flourishing condition, financially and otherwise.

THE greater portion of our paper is taken up with the Governor's message, which deprives our readers of their usual variety of reading matter, but as the message is a good one, they will not regret the change.

ARRESTED.—Mr. Jerry Reardon a respectable citizen of Philipsburg was recently arrested by an officer from Altoona. The charge not being correct of course Mr. Reardon was immediately discharged from custody.

HIGH, O!—The *Reporter*, published over in the valley, has put in its appearance again. It is enlarged and printed on a power press in New York. Fred cannot do anything but dance and shout in broken dutch about his paper.

RESUMED OPERATIONS.—Valentine, Miliken & Co's. Furnace which has been undergoing repairs for the last five weeks was again put in blast this week. Next week their forges will resume operation and things will again move lively in that neighborhood.

THANKS.—We are under obligations to Mr. Wm. I. Furst, of Patton tp., for a fine New Year's turkey, which we and ours enjoyed very much. Mr. Furst is a first class farmer; pays the Printer in advance, and prospers as all others do who do likewise.

MORE PORK.—Mr. Andrew Lytle, of Harris tp., last week killed a Chester White pig, 15 months old that weighed 401 lbs. Mr. Lytle is one of Harris township's prosperous and good farmers. He understands his business and knows that there is money in raising hogs.—We purchased four hogs and half a beef from him and the meat was excellent.

BURGLARY.—We learn that on last Friday night there were two more fires in Lock Haven and one burglary. The burglarized store was a jewelry establishment, in which the thieves broke open the safe and extracted from it some five hundred dollars in money and other valuables.

HOME TALENT.—The young men of this place who have been practicing theatricals &c,. for the last few weeks, will give a public entertainment in Reynolds' Hall on next Friday evening. If practice "makes perfect." it will be a superb entertainment, and as it is a home enterprise, gotten up without regard to time or expense, the house will no doubt be crowded on that occasion. The entertainment will be conducted on moral and temperance principles, and nothing will be said or done that will offend the taste of the most fastidious. Give the boys a booming house.

FESTIVAL.—We learn from the Philipsburg *Journal* that the Fair and Festival held by the ladies of the M. E. Church of that place during the holidays was well patronized and netted quite a handsome sum. The gross proceeds were $759,43, the expenses, $179,43, leaving a balance of $580,00. An elegant silver pitcher, contested for by the friends and members of the different secret organizations of the place, was voted to Moshannon Lodge A. Y. Masons, by a large majority. Many articles of value were disposed of by chances. The proceeds, we are informed, are to be devoted to furnishing the new church with a carpet, &c., to correspond with the elegance of the interior.

CITY HOTEL, WILLIAMSPORT.—Persons visiting Williamsport, Pa., who wish to stop at a hotel where the Landlord is affable and courteous, the servants attentive and polite, and where all the luxuries of the season can be found on the table, they should by all means put in an appearance at the City Hotel, on the corner opposite the Court House and a few doors from the law office of Hon. William H. Armstrong, S. Van Buskirk, Proprietor. Van is an old hotelest and understands his business. His terms are very reasonable, and no one visiting that city should fail to call on the affable proprietor and get a shake of his honest hand.

FINE old Government Java and Prime Rio Coffee at Foster & Devling's.

ON TIME.—It is astonishing to see the number of watches that are brought to Frank P. Blair's for repairs. A person would wonder where they all come from, and why they all come there?—The reason is that he is, in this line, giving such unrivaled satisfaction, and turning out such superior work, that he is undoubtedly THE Watchmaker of Bellefonte. Give him a trial and you will be convinced that he has the best establishment of the kind that has ever been in this section of the State. No. 1 Bush House is his store.

IN TROUBLE.—Tax collector Logan of Rush township, undertook to seize the property of Mr. Batchelor for taxes not paid. Batchelor wanted to see Logan's warrant, whereupon Logan presented a revolve and swore that was his warrant. Women came to the rescue, screamed and took hold of the coat tail of Batchelor and toted him off.—Result—trial before a Peace officer and parties bound over to stand trial at Court.

BEST Navy Tobacco in Bellefonte at Foster & Devling's.

INSTALLED.—The Philipsburg *Journal* says the following named officers of Red Warrior Tribe No. 109, I. O. R. M. were installed on Tuesday evening, January 3d:

Michael Johnston, Sachem; Ed. Rradin, S. Sagamore; W. R. Hemphill, J. Sagamore; E. Runk, Chief of Record T. J. Cryan Asst. C. of R. John Mays, Keeper of Wampum.

FESTIVAL.—A lady has informed us that the members of the Lutheran Sunday School, of this place, had a festival and Christmas tree at their church on Christmas eve.

Societies wishing to have their proceedings noticed by the Press, should inform their Conductors of the fact, either before or after the occurance. Editors are not omnipresent.

FROZE TIGHT.—A great many of the hydrants of this place have been frozen during the cold weather. If the borough Authorities and citizens wished to avoid that inconvenience they could do so by using D. I. Pruner and B. V. Black's patent non-freezing hydrant.—It never freezes and is superior to those now in use in many other respects.

FINE Teas and Spices at Foster & Devling's.

COMING.—That good looking and well drilled military company, the "Seller Zouaves," will enliven this place by a parade in full uniform on the 22d of Feburary—Washington's birth day. We hope our citizens will entertain them in a style and manner becoming the day and occasion.

FUNERAL.—The funeral last Thursday of Caleb Matlock Kephart, who died in Kansas city from injuries received on the Kansas Pacific railroad, and whose remains were brought here for burial, was one of the largest in numbers attended, that has taken place for several years.

NOT BORROWED.—The writing editor of the Tyrone *Herald* is hereby informed that the Carrier's Address of this paper was neither borrowed or stolen. The writer of it scorns all such pilfering, and is as capable of writing as good poetry as any other first class genious.

TOBACCO.—Keep your tobacco boxes in your pockets when in the presence of the tobacco reformer or you might loose them. We understand he has already a good supply on hand, and and intends to auction them off, the net proceeds to go to the Y. M. C. A.

THE *Berichter* may be a good paper, but it is all dutch to us.

SHERIFF SALES.—Sheriff Woodring will sell, to the highest bidder, at the Court House in this place, on Monday the 23d inst., the following property.

Two lots of ground, in Rush township, containing one fourth of an acre each, on which are erected one dwelling house and one hotel.

A two-story frame building in this borough near the glass works as well as all the real estate of the old glass company.

Four hundred and thirty-three acres of land in Snow Shoe township.

A farm in Boggs township, under good cultivation containinfi 180 acres.

Two tracts of land in Ferguson tp., one containing 75 acres and the other 18 with improvements.

A farm in Boggs township containing 96 acres, with improvements.

A two story dwelling house and lot, in Boggs township,, on the road leading from Milesburg to Marsh Creek.

Seven acres of land with one brick and one frame dwelliug house, adjoining the railroad and Milesburg.

BEST Assortment of Sugars at Foster & Devling's.

SAVE MONEY.—In another column of the REPUBLICAN will be seen the card of the St. James Hotel, Washington City, D. C.; G. W. Bunker & Co. Proprietors. This is the only Hotel in Washington City which furnishes first class accommodations at $3,00 per day.—One of the Proprietors, Mr. Bunker, we believe, is a Pennsylvanian, a gentleman in every sense of the word, and as such should be patronized by every Pennsylvanian who should visit Washington either upon business or pleasure. We have no hesitancy in recommending this Hotel to all our friends, and assure them that they will receive the best accommodation, and save money besides, by stopping at the St. James.

BROKERHOFF HOUSE.—We can commend the Brokerhoff House of this place, to the travelling public as being the best hotel in Central Pennsylvania. It is kept in tip-top style by those affable and accommodating Landlords, Messrs. Houseal & Krom, who spare no pains in time or money to make their guests comfortable. For good accommodations and kind attention, the Brokerhoff, under the charge of its present popular Proprietors, has gained an enviable reputation over the whole State. If you wish a good "square meal," go to this hotel and your wish can be gratified.

CANNED Fruits and vegetables of every kind at Foster & Devling's.

NO HUMBUGGING! NO CHEATING!—A pint bottle full of Dr. Sage's Catarrh Remedy is prepared from one fifty cent package, and the proprietor offers $500 reward for a case of Catarrh which he cannot cure. Sold by druggists, or send sixty cents to Dr. R. V. Pierce, 133 Seneca st., Buffalo N. Y., and receive it by mail. A pamphlet free. Beware of counterfeits and worthless imitations. The Genuine has, upon the outside wrapper, Dr. Pierce's private Government Stamp with his portrait, name and address, and the words "U. S. Certificate of Genuineness" engraved upon it.

IMPORTANT to real estate owners: Do not forget to have your deeds recorded as the law provides that it shall be done within six months after they are signed or the original owner may reposess, sell or mortgage at will. Some of our people will lose unless they attend to this matter.

DEDICATION.—The Lutheran Church at Boalsburg, Centre county, Pa., will be dedicated Sunday, January the 22d, 1871, at 11 o'clock a. m. Ministers from a distance will be present.

All neighboring Ministers and the public in general, are invited to attend.

ROWDYISM.—On last Saturday night, several drunken rowdy's broke into a private residence and smashed the furniture up promiscously and frightening the inmates. It was an unprovoked affair and the depredators should be severely punished.

THE Harrisburg correspondent of the Philadelphia *Press* says that E. C. Humes, Esq., of this place, is spoken of as a compromise candidate for State Treasurer.

FISHY.—That yarn in the last *Watchman* about two school teaches and one "schoolmarm" taken a ride in a buggy sounds very familiar. Spin again, Joseph.

PAY HIM.—Our special Agent Joshua D. Mitchell is now engaged in calling on our delinquent subcribers. Be sure and have the scrip ready for him.

THE Homestead Life Insurance Company of Philadelphia, has removed restrictions as to travel, residence and occupation from the policies they issue.

COURT.—Court commences in this place on the 4th Monday of this month, the 23d inst.

CENTRE COUNTY TEACHER'S INSTITUTE.—The Chairman of the committee, W. W. A. Shultz, reported the following resolutions which were unanimously adopted. They were crowded out of our last issue:

Resolved.—1st. That we endorse the resolutions that have been reported by the Directors, at this Institute.

2d.—That in the County Institute we have one of the most efficient means of improvement in method of teaching; That Directors should grant teachers their time to attend the Institute agreeable to the provisions of the school law and that teachers who manifest so little professional zeal as to absent themselves should be mustered out of the service.

Whereas it has pleased Almighty God in his wise Providence to call from our midst our late fellow laborers, Samuel R. Brean and Mary A. Weaver, therefore be it.

Resolved.—That we feel deeply the loss which we sustained by their decease, recognizing as we do the abliity, faithfulness and zeal which they displayed as teachers, but knowing that the "Lord doeth all things well," we comfort in the thought, that our loss is our deceased co-laborers gain.

4th.—That we deem it the duty of every teacher to procure and study Prof. Wickersham's, or other works, on teaching, and subscribe for the Pennsylvania School Journal.

5th.—That all teachers should decorate their school rooms, making them home-like in appearance and attractive to children.

6th.—That we recognize the county Normal School of Centre county as a most effective agency for the improvement of teachers.

7th.—That in our county Superintendent, R. M. Magee. Esq., we have a school officer meriting the thanks of the teachers, directors and citizens of Centre county for his zeal and energy in the cause of education.

8th.—That our thanks be tendered to the instructors of the Institute for services rendered; To the proprietors of the different hotels for their liberal reduction in rates of fare and the citizens of Bellefonte for their hospitality and kindness manifested to the members of the Institute.

He sold them to those enterprising merchants Loeb, May & Loeb, who always keep the best of everything. Ben was accompanied by Reuben Resides, Esq., of Charlottsville Clearfield Co. Pa., who is a good fellow and appeared to rejoice as much at the success of Mr. Hunter, in raising pork, as did Ben himself. Just here we must ask our friend Benjamin who is a consistant Democrat how much do you think, you would have obtained for your pork if your party had been in power and free trade the rule of the country?

A correspondent of the *National Baptist*, in commenting upon this curious news item, asserts that—"The Church referred to is of the Six Principle Baptist, one of the two or three remaining bodies holding that peculiar faith—a denomination which once boasted of a number of churches and an extensive membership in Rhode Island. One of their peculiarities—and the one which is probably hastening their extermination—is a reliance upon an uneducated ministry." The correspondent, furthermore, makes this astonishing statement: "The Pastor of the Church above refered to is not only unable to read the Scriptures, but is so given to intemperance as to be a constant reproach to his brethren."

BRAINARD, the Tyrone *Herald* man, was in town last Friday, looking as gay and festive as a sour apple.

They were known by everybody in the neighborhood as "Uncle Jim and Aunt Betsy." They lived a married life of about 49 years, "Aunt Betsy" began to fail quite rapidly after the death of "Uncle Jim," and we know that she would not be long with us. She passed away after an illness of two weeks rejoicing in the Hope of blissful immortality. The funeral services where conducted by Rev. D. G. Kline, assisted by Rev. J. K. Millet. T. W. D.

The $12 Lever Watch, No 13,580, purchased from Chas. P. Norton & Co. 86 Nassau-Street New-York, January 5th, has been carried by me over six months, with a total variation in time of only 26 seconds, without the slightest regulating, and presents the same brilliancy of color as when purchased.
JAMES R. WILTON,
Sec. American S. M. Co. N. Y.
New-York, July 30th, 1870.

I have for the past eight months, constantly used one of the $15 Norton, Oride Gold Lever Watches, manufactured by Chas. P. Norton & Co. 86 Nassau-Street, New-York, and found the total variation in its time but one half minute, (30 seconds, and it retains the same appearance of gold as when purchased. Several of our men use them with the same results. I cheerfully recommend them for correctness and wear.
